## Remarks

Lapine Irrigated Farm presents a rare opportunity to acquire a highly productive irrigated land holding in the sought-after West Medford area of Southern Oregon. Spanning just over 25 acres, this exceptional farm offers level topography, an efficient and workable configuration, irrigation water rights, and a strong soil profile—making it well positioned for a wide range of agricultural uses.

The property features a desirable blend of Class II Central Point and Barron Coarse Sandy Loam soils ( $\pm 20$  acres) and Class I Silty Clay Loam soils ( $\pm 5$  acres), providing excellent versatility for crop selection and long-term productivity. Irrigation water for 24.50 acres is delivered by the Medford Irrigation District. Zoned Exclusive Farm Use (EFU), the land is protected for agricultural purposes and offers enduring value for farm operators and land investors alike.

Historically operated as a productive orchard until the early 2000s, Lapine Irrigated Farm has continued to perform, having been leased and farmed in a variety of grass and row crops over the past two decades. The property also enjoys stunning, unobstructed views of Mount McLoughlin and Roxy Ann Peak, creating a rare combination of productivity and scenic appeal.

Ideally located, the farm sits less than four miles from Central Point and Jacksonville and under five miles from Medford, providing immediate access to services, markets, and infrastructure. Interstate 5 and Rogue Valley International–Medford Airport are just minutes away, enhancing both operational efficiency and long-term desirability.

Southern Oregon is widely recognized for its abundant water resources, fertile soils, expanding wine industry, and diverse niche agriculture, all supported by a favorable climate with four distinct seasons, mild winters, and a long growing season. Lapine Irrigated Farm represents a compelling opportunity to secure a premier agricultural property in one of the Rogue Valley's most desirable locations.

## Property Identification

The property does not yet have a physical address and is located south of Lapine Avenue, Central Point, Oregon 97502. It is made up of 4 tax lots and 4 account numbers as shown in the table below.

Property Identification						
Township	Range	Section	Tax Lot	Account #	Acres	Zoning
37S	2W	21A	6200	10465900	4.21	EFU
37S	2W	21A	6203	10665867	6.23*	EFU/UR-1
37S	2W	21A	6204	10665875	5.07	EFU
37S	2W	21B	2700	10466225	<u>10.11</u>	EFU
				<b>Total</b>	<b>25.62</b>	

\*Please note that this tax lot is subject to a lot line adjustment where approximately +/-0.50 acres are being transferred to the neighbor. The original tax lot size was 6.73 acres.

## Property Details

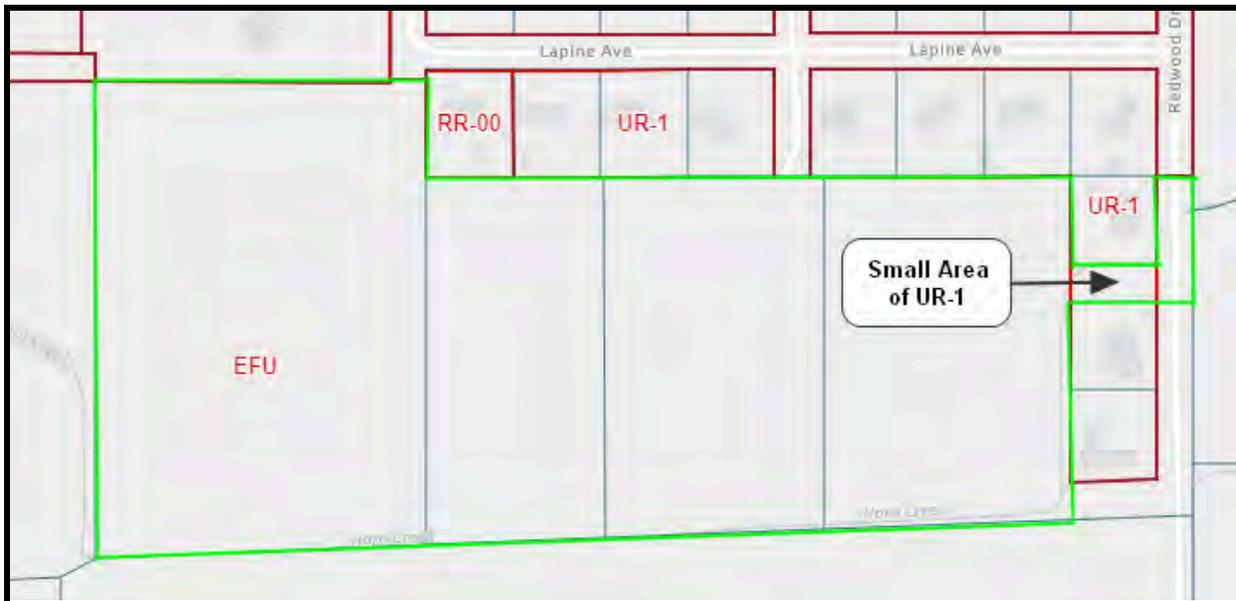

<b>Access:</b>	Access is via multiple access points: end of Niedermeyer Drive, end of Poplar Drive, and one access point off of Redwood Drive
<b>Present Land Use:</b>	Vacant irrigated land
<b>2025 Taxes:</b>	\$350.95 *subject to change pending lot line adjustment
<b>Zoning:</b>	Mostly EFU with a small component of UR-1 (Exclusive Farm Use/Urban Residential)
<b>Elevations:</b>	+/- 1,400' above sea level
<b>Soils:</b>	+/- 20 acres of Class II loam and +/- 5 acres of Class I loam
<b>Water Rights:</b>	24.50 acres of water rights from Medford Irrigation District
<b>Water Costs:</b>	\$2,778.50 (2025 Irrigation Year)
<b>Irrigation Distribution:</b>	Point of diversion located along south end of the property, adjacent to the small irrigation bulge
<b>Water/Sanitation:</b>	None at this time
<b>Electric/Power:</b>	No power on-site

## Locational Attributes

**Southern Oregon Region:** Southern Oregon is strategically located midway between Portland and San Francisco on Interstate 5, with convenient connections to the Oregon coast via Highway 199 and to eastern Oregon via Highways 62 and 140. This good transportation network helps link the most populated cities in the region of Medford, Ashland, Jacksonville, and Grants Pass.

Southern Oregon is an outdoor lifestyle paradise – if there is something related to the outdoors that you love doing, you can do it here! Recreation in the area is vast and there is no shortage of hiking trails, fishing holes, or live water activities due to the abundance of rivers and lakes. The region is home to a wide array of natural amenities like Crater Lake, the Oregon Caves National Monument, and the Rogue River. The area enjoys a mild Mediterranean climate with four distinct seasons and mild winters.

Timber, pears, and cattle have historically been the leading agricultural economic drivers in Southern Oregon. In recent years the region has seen a rise in other types of agriculture including row crops as well as permanent plantings (wine grapes). In more recent years, the area has begun to see increase in notoriety within the wine industry for the region's ability to grow many different varieties at a high quality.

## Climate

From a climate perspective, Southern Oregon offers the most diverse growing conditions in Oregon and arguably in the United States. According to Dr. Greg Jones, a local expert climatologist, the maritime air masses that originate over the Pacific are cooled by the ocean currents offshore and moderate the climate of the region. The Rogue Valley has the higher elevations and, along with their general north-south tending valleys, proximity to the ocean, and intervening topographical barriers, creates a climate transect of wetter and cooler conditions in the western parts of the region to the warmer and drier eastern areas.

Winter temperatures below freezing and summer temperatures above 90°F are common. July average maximum temperatures range from the low 80s to the lower 90s and January average minimum temperatures stay around the low 30s. There is an average of 36 inches of rain and an average of 5 inches of snow per year. On average, there are also 194 sunny days per year in Josephine County.
