Refined Interiors and Generous Living Spaces

Vaulted ceilings and expansive windows create an open, light-filled atmosphere while framing the surrounding landscape.

Multiple fireplaces add warmth and architectural character throughout the home.

The kitchen is designed around a substantial center island and features granite counters, built-in elements, generous storage, and a pantry. Formal and informal living areas provide a range of spaces for intimate gatherings, family life, and larger-scale entertaining.

Additional interior features include custom built-ins, walk-in closets, a soaking tub, tile shower, double vanities, and thoughtfully arranged bedroom suites. The home's scale and layout offer the flexibility to accommodate a variety of lifestyles without sacrificing comfort or privacy.

Second Homesite on a Separate Tax Lot

One of the property's most compelling features is a second homesite located on a separate tax lot. This creates uncommon flexibility for a future residence, guest home, multigenerational compound, or long-term investment opportunity, subject to buyer verification and applicable land-use and development requirements. The separate tax lot adds meaningful versatility that is difficult to find in comparable Southern Oregon estate properties.

The landscaped grounds are centered around an in-ground gunite swimming pool, offering a private resort-like environment just steps from the residence. A tranquil water feature, established landscaping, pasture, and mature wooded areas enhance the property's natural beauty and create a peaceful backdrop.

Acreage, Parking, and Workshop Space

The attached three-car garage includes workshop space and convenient access to the residence. A large paved parking area, along with additional RV access and parking, provides ample room for recreational vehicles, equipment, trailers, guests, or other outdoor lifestyle needs. A separate storage shed adds further utility.

The acreage includes a desirable combination of usable ground and natural landscape. Open areas may support animals, gardens, recreation, or additional improvements, while the wooded portions contribute privacy, scenery, and a strong connection to the Southern Oregon setting.
